

Star Child Academy

It makes me a little emotional that it is my last year at Star Child Academy. NOOOOOOOO! I don't want to leave So lets take a trip down memory lane and ponder about the last 4 years at Star Child Academy. I started Star Child Academy at the age of 3. Of course at that time I didn't realize that going to Star Child Academy was the best decision that my parents made for me. Miss Pam was my 1st preschool teacher, she taught me how to write my name, she taught me how to count, and she taught me the alphabet. Other half of the year, I had Miss Deborah. She was a little bit more advanced, but I was able to catch up . She was very caring and understanding.

My preschool Bteacher was Miss Michelle. The best thing I was taught was forming words. My Pre-K teacher was Miss Jackie. The best thing I learned was how to read. For the teachers I have now, I will always have happy feelings for them. Miss Debbie [for kindergarten- 2nd grade], Miss Jessica [for Kindergarten], Miss Lindsay [for 1st grade and 2nd grade], and Miss Brandi [2nd grade] are all wonderful teachers.

They pushed me to be the best that I can be. I am reading and comprehending 3rd grade books and up. I learned new vocabulary words every week thanks to Miss Debbie's hard work. I learned multiplication, division, Napier's Bones, making an octahedron, a dodecahedron, a tetrahedron, and an icosahedron thanks to Miss Lindsay's hard work. I learned about the human body, the Periodic Table, energy, and electricity thanks to Miss Brandi's hard work. I enjoyed dissecting the organs and all the science experiments.

I have many memorable moments at Star Child Academy. My teachers, so dedicated, helpful, and kind. They taught me to speak the truth, be kind, and work hard! I made many best friends as I started Star Child . I hope we can stay best friends for life.

I can't forget Miss Cindy, Miss Shelby, and Mr. Peter. You guys have been great!!!! You guys gave me the best opportunity to attend Star Child. Miss Cindy, thank you for believing in me and for your weekly pop-quizzes. Miss Amaal, thank you for teaching me Arabic and how to mummify a chicken. Miss Ayako, thank you for teaching me the abacus Mr. Mike, thank you for teaching me the love of music and music technology. Mr. Paul, thank you for teaching me how to type and teaching and finishing my scratch project. Mr. Jason, thank you for keeping me fit.

THANK YOU, THANK YOU, THANK YOU!!!!!! Even if I thanked everybody a billion times it wouldn't be enough. Every one at Star Child has given me a great start on my educational journey. Star Child has made a big difference in my life because the curriculum has made me more advanced than other kids and if I work hard, I will succeed. I wish I could stay at Star Child until college [Miss Cindy and Mr. Peter you still have 2 weeks to think about it!] Fortunately I will still be able to see you every day thanks to my brother. To newcomers to the school you are fortunate and lucky to be part of the Star Child Academy family.
