

My Experience At StarChild Academy

by Joshua Lefkowitz

I have been so lucky to be a student at StarChild for the last 4 years. I started out at Mr. Ron's school in Oviedo and then moved to the Wekiva location for Kindergarten through 2nd Grade.

At StarChild, I've been able to learn things that I wouldn't have learned at any other school. I got to learn 3 new languages and the cultures of those languages.

In music, I learned how to play lots of new instruments. They are the drums, bells, recorder, melodica, flute, and boomwhackers. I learned how to use GarageBand on Mr. Mike's computer. We used this and Finale to write the school song. I'm proud to be involved in the creation of the school song. I'm also proud to have been chosen to conduct the first public performance of the school song.

I've made lots of good friends here. I'm so fortunate to have 4 best friends in my 2nd Grade class. I have fun playing with them and we help each other out. I hope I stay friends with them forever.

My teachers at StarChild are wonderful. They taught me lots of new things and they always make learning fun. They really care about all the kids and I'll miss all of my teachers when I leave.

Thank you Miss Cindy and Mr. Peter for letting me come to your school. I will never forget my experience here at StarChild Academy.
